Compact Bluetooth® Laptop Laser Mouse

Introduction

Mouse

Safety Notice

- This product complies with IEC 60825-1, Class I laser product. **(for Laser mouse models only.)**
- The product complies with FCC and CE rules.

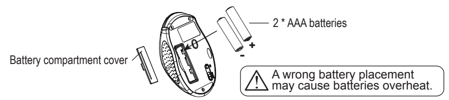

Note

- This Product doesn't include Bluetooth dongle.
- The mouse easily connects to notebooks built in Bluetooth technology.
- The mouse also can be connected to Bluetooth dongle through your Bluetooth dongle driver, it is not guaranteed 100% compatile.

Hardware Installation

Part 1. Insert the batteries

a. Remove the battery compartment cover on the bottom case of the mouse
b. Fit in the batteries accordingly to the diagram indicated in the battery cabinet.
c. Close the battery compartments cover properly.
d. Make sure the Power on-off swich on the bottom of the mouse is ON.
e. The Low Power LED on the wheel bar will blink 3 seconds if the mouse power is on.

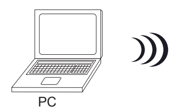

Note

- The unit offers a strong power saving management. Once the mouse accesses the sleeping mode, " to click any button of the mouse" is compulsory to wake it up.
- **Power on/off:**
  Power on/off switch is designed to save the batteries power while non-usage of a longer period.
- The red LED on the scroll bar of the mouse is a low batteries power indicator. It indicates that batteries inside the mouse need to be replaced.
- Make sure that you are not working the mouse on glossy or reflective surfaces.

Part 2. Bluetooth Pairing
